

ACHIN MANDOTIA

• Software Engineer •

ABOUT ME

A software engineer skilled in MERN stack, Ruby and Rails. I'm curious about learning new technologies and building solution that are scalable and flexible to solve diverse range of problems.

I'm a gym junkie, love to cook and an aspiring Kite Surfer.

EDUCATION

2015 - 2016 • The University of Melbourne • Master of Information Systems

2020 - 2020 • Coder Academy • Diploma of Information Technology(Bootcamp)

EXPERIENCE

2020 Coder Academy

Full time student

- Focused on honing developer skills in a collaborative and inspiring environment.
- Worked and learned technologies – Ruby on Rails & JavaScript MERN stack (Mongo.db, Express, ReactJS, Node.js).
- Build real world projects within a limited time frame and demo the solution

2019 - 2019 BHP Billiton

Field Support Technician

- Engaged users for hardware and software issues with the right service provider.
- Provided onsite support using technologies such as Splunk, Service now, office 365 applications and Powershell scripts

2018 - 2019 Chevron

Desktop Support

- Supported end users via email, face to face and phone.
- Provided services such as maintenance, troubleshooting, diagnosis, rectification and upgrade of hardware and software issues.
